

FOTON H7 INTERCITY BUS

HIGH FUNCTIONALITY COEXISTS WITH ECONOMICAL EFFICIENCY

The new Foton H7 combines high functionality with comfort, and sound quality with excellent safety. Much emphasis has been placed not only on its aerodynamic design and outstanding driving characteristics, but also especially on its efficient fuel consumption and the low life-cycle costs.

Thanks to the high flexibility in terms of the configuration and capacity variants, it can be designed for interurban travel and shuttle transport. The materials, powertrain, processing and production are systematically designed for longevity.
